
Thank you for the report on the Focus Areas of the Open Working Group (OWG) Working Document for the 5 –9 May Session. The Road to Rio Nutrition Advocacy Group is calling for a standalone food and nutrition security goal and so welcome the progress on Focus Area 2. to end hunger, improve nutrition and improve food systems, especially the specific targets 2 a) and 2 b). In this note, in track changes to the draft, we make recommendations that are key to driving progress against maternal and child malnutrition, which is the cause of 45% of preventable child deaths and leads to irreversible, lifelong consequences for a child’s physical and cognitive development.

In 2012, the World Health Assembly set six global targets designed to reduce the unacceptably high burdens of disease and death caused by poor nutrition by 2025. The OWG report is an opportunity to endorse these already agreed global targets and build upon them by setting more ambitious targets and indicators to 2030. We recommend including the WHA 2025 global targets under focus areas 2 and 3 ahead of ‘WHA 2025 plus’ targets to 2030 being elaborated. Please see below. By endorsing the six WHA 2025 targets and committing to investment and action to expand nutrition interventions, we can prevent the deaths of millions of children and build foundations for healthier and more prosperous societies.

The report could also underscore the urgent need to enhance systems and tools for gathering better and more frequent data, particularly on undernutrition rates, micronutrients, child deaths from (acute) malnutrition, diet quality and local availability and affordability of diverse nutritious foods. Data should be disaggregated by gender, age, ethnicity, geography and other key targets essential for reaching the most vulnerable and marginalized. Additionally, for nutrition indicators in particular, such as stunting and wasting, data should be collected for children under 2 and under 5.

Finally, nutrition is inextricably linked to other key areas, including health, agriculture, water sanitation, hygiene (WASH) and women’s empowerment. Please consider embedding nutrition across the agenda by including nutrition targets in other focus areas, including health and population dynamics, education, WASH and gender equality and female empowerment. We make some recommendations in the text below (in red).

The Road to Rio Nutrition Advocacy Group

Building off the success of collaborating around the 2013 Nutrition for Growth high-level event in London, the network of organizations formed the Road to Rio Global Nutrition Advocacy Group to serve as a platform for organizations to share information and collaborate on resource mobilization and advocacy leading up to the Rio 2016 high-level nutrition event organized by the Government of Brazil. The Road to Rio Group represents a diverse range of organizations, including NGOs and other implementing organizations, social movement organizations, advocates, foundations, and campaigners, which work across the development sector but unite around one common goal: saving and improving lives through better nutrition. The Road to Rio Nutrition Advocacy Group coordinates closely with colleagues in many countries via their own offices and the Scaling Up Nutrition (SUN) Civil Society Network. Working Document for 5–9 May Session of Open Working Group
Focus area 1. Poverty eradication, building shared prosperity and promoting equality
End poverty in all its forms everywhere
a) eradicate extreme poverty by 2030;
b) reduce the proportion of people living below national poverty lines² by 2030;c) by 2030 implement nationally appropriate social protection measures including floors³, with focus on coverage of the most marginalized⁴
d) build resilience of the poor and reduce by x% deaths and economic losses related to disasters⁶
e) achieve full and productive employment for all, including women and young people;
f) ensure equality of economic opportunity for all women and men⁷, including secure rights to own land, property and other productive assets and access to financial services for all women and men⁸

Appropriate means of implementation

Focus area 2. Sustainable agriculture, food security and nutrition
End hunger and improve nutrition for all through sustainable agriculture and improved food systems
a) all people have access to adequate—(safe, affordable, diverse and nutritious) food all year round adequate to meet food-based dietary recommendations⁹
b) end malnutrition in all its forms, undernutrition: notably stunting and wasting in children under five years of age, especially in the 1,000 day window from a woman’s pregnancy to her child’s second birthday, micronutrient deficiencies and overweight/obesity.

NOTE: Include an endorsement of the 2012 World Health Assembly nutrition global 2015 targets as they are key in driving progress in these areas.

c) by 2030 ensure sustainable food production systems with high yields, and reduce intensity of use of water by at least x%, chemicals by at least y%, and energy by at least z%

d) by 2030 achieve access to adequate inputs, knowledge, productive
resources, financial services and markets for small farmers and fishers, with a particular focus on women and indigenous peoples.

e) reduce the global rate of loss and waste along the food supply chain by 50 percent by 2030.

f) all countries have in place sustainable land-use policies by 2030.

and all drought-prone countries develop and implement drought preparedness policies by 2020.

g) achieve climate-smart agriculture that is resilient and adaptable to extreme weather including drought, climate change and natural disasters.

h) achieve by 2030 protection of agricultural biodiversity, including through use of the practices and local knowledge related to agro-biodiversity and diversity of food.

Appropriate means of implementation

Focus area 3. Health and population dynamics

Healthy life at all ages for all

NOTE: Given the importance of maternal and child nutrition to ending preventable child deaths and reducing maternal mortality, at the very least this goal should reflect the World Health Assembly 2025 global targets on maternal and child nutrition. We recommend adding the following:

a) by 2030 reduce the maternal mortality ratio to less than 40 per 100,000 live births, end preventable new-born and child deaths and reduce by x% child and maternal morbidity.

b) All children 6-23 months have access to an adequate nutritious diet as measured by children’s minimum adequate diet;

c) All women of reproductive age have access to adequate nutritious diets as measured by a “dietary-diversity indicator”;

d) Increase exclusive breastfeeding rate in the first 6 months to at least 60%.

b. Increase the rate of exclusive breastfeeding in the first 6 months up to at least 60%;

c. Increase the rate of continuation of breastfeeding between 6 months and 2 years;

e) Reduce low birth weight to below 10%;
f) Reduce childhood overweight/obesity by at least 20%;
g) Reduce anaemia to below 10% in women of reproductive age and children under 5;
b) by 2030 end the epidemics of HIV/AIDS, tuberculosis, malaria and neglected tropical diseases;
c) reduce by x% the risk of premature mortality from non-communicable diseases (NCDs), injuries and promote mental health with strong focus on prevention;
d) achieve universal health coverage (UHC), including financial risk protection, with particular attention to the most marginalized and treatment of severe acute malnutrition;
e) by 2030 ensure universal access to affordable essential medicines and vaccines for all;
f) ensure universal access to comprehensive sexual and reproductive health for all, including modern methods of family planning;
g) decrease by x% the number of deaths and illnesses from indoor and outdoor air pollution and other forms of environmental degradation;
h) Eliminate narcotic drug and substance abuse;

Appropriate means of implementation

Focus area 4. Education and life-long learning
Provide quality education and life-long learning for all
a) by 2030 ensure universal, free, equitable access to and completion of quality primary and secondary education for all girls and boys, leading to effective learning outcomes;
b) ensure that persons with disabilities have access to inclusive education, skills development and vocational training;
c) by 2030 increase by x% the proportion of children able to access and complete quality pre-primary education;
d) by 2030 achieve universal youth and adult literacy, with particular attention to women and the most marginalized;
e) by 2030 increase by x% the number of young and adult women and men with vocational training, technical, engineering and scientific
skills
f) integrate relevant knowledge and skills in education curricula, including the importance of good nutrition and hygiene, especially during pregnancy and early childhood, to long-term health and productivity.

ICT skills, education for sustainable development, and awareness raising on culture’s contribution to sustainable development.

g) all schools to provide safe and healthy learning environment for all students.

Appropriate means of implementation

Focus area 5. Gender equality and women’s empowerment
Attain gender equality and women’s empowerment everywhere

a) by 2030 end all forms of discrimination against women of all ages.

b) by 2030 end violence against women and girls in all its forms.

c) by 2030 ensure equal access to education at all levels.

d) by 2030 ensure equal employment opportunities for women and equal pay for equal work.

e) by 2030 ensure equal access to, and control of, income, assets and resources, including natural resources management.

by 2030 ensure that all women of reproductive age have access to adequate nutritious diets as measured by a “dietary-diversity indicator”;

Ensure that women are supported in optimal breastfeeding through women’s nutrition, education, breastfeeding support, maternity leave and empowerment.

f) ensure equal participation and leadership of women in decision-making in public and private institutions.

g) by 2030 end child, early and forced marriage and reduce the proportion or number of women who have a child before the age of 18.

NOTE: Because of the link to maternal and child mortality and early childhood malnutrition

h) by 2030 reduce the burden of unpaid care work.

i) by 2030 ensure universal access to sexual and reproductive health and reproductive rights.

j) promote the availability of gender disaggregated data to improve...
gender equality policies, including gender sensitive budgeting.43

Appropriate means of implementation

4

Focus area 6. Water, sanitation, and hygiene

Water and sanitation and hygiene for a sustainable world

a) by 2030, provide universal access to safe and affordable drinking water, sanitation and hygiene, especially for women and girls.45

b) by 2030, reduce to zero or end open defecation

c) Reduce the incidence of diarrhea caused by waterborne disease, poor sanitation, and poor hygiene practices;

b) by 2030, improve wastewater management, recycling and reuse by x%46

c) by 2030, improve water-use efficiency47 by x% in all sectors, with particular focus on agriculture48

d) implement integrated water resource management, including appropriate trans-boundary co-operation49

e) by 2030, bring fresh water extraction in line with sustainable supply, protect and restore ecosystems, to provide water-related services50

f) by 2030, significantly improve water quality, eliminate pollution and dumping of toxic materials in water bodies, and protect aquifers51

g) invest in water harvesting and storage technologies, and double the rainwater harvested by 203052

h) decrease by x% mortality and serious injuries, and decrease economic losses caused by water-related disasters, by 2030 53

Appropriate means of implementation

Focus area 7. Energy

Ensure access to affordable, sustainable, and reliable modern energy for all

a) by 2030 ensure universal access to sustainable modern energy
services b) doubles the share of renewable energy in the global energy mix by 2030
c) doubles the global rate of improvement in energy efficiency, including in buildings, industry, agriculture and transport, by 2030
d) by 2030 increase by x% the share of clean and low-or zero-emission energy technologies, including sustainable biomass and advanced cookstoves
e) by 2030 phase out fossil fuel subsidies that encourage wasteful consumption

Appropriate means of implementation 5

Focus area 8. Economic growth, employment and infrastructure
Promote sustainable, inclusive and sustained economic growth and decent jobs for all
a) sustain income growth of the bottom 40% of the income distribution of each country to reduce income inequalities by 2030
b) achieve full and productive employment and decent work for all who seek employment including for marginalized groups by 2030
c) halve the number of youth not in employment, education or training by 2020

d) by 2030 improve by x% the energy and resource productivity of economic activities and reduce by y% their waste and emissions per unit of output

e) create appropriate climate for SMEs, entrepreneurship and innovation by 2020

f) increase the share of high productivity sectors and activities in the economy, and strengthen productive capacities through technological upgrading and greater value addition, with a particular focus on LDCs

g) develop sustainable infrastructure accessible to all, with attention to needs of countries in special situations, and by 2030 provide access for 100% of rural populations to basic infrastructure and services

h) protect the rights of all workers, including migrant workers, in
compliance with ILO fundamental rights at work73
i) end child labour by 203074
Ensure that women are supported in optimal breast-feeding through
women’s nutrition, education, breast-feeding support, maternity
leave, and empowerment
j) encourage formalization of informal sector activities and
employment75

Appropriate means of implementation

Focus area 9. Industrialization and promoting equality among nations
Promote sustainable industrialization and equality among nations
a) ensure adequate policy space76 and a conducive policy environment
for industrial development, including encouragement of industrial
entrepreneurship and enterprise formation with inclusion of SMEs77
b) create decent industrial sector jobs and promote job-rich
industrial development78
6
c) achieve high productivity levels across industrial sectors in all
countries79
d) by 2030 increase industrial diversity particularly in developing
countries, with a focus on shifting towards higher value-added
activities80
e) by 2030, increase by x% the resource-efficiency of industry81,82,83
reduce by y% harmful chemicals used and waste generated82, and
decrease by z% the intensity of carbon emissions from the industrial
sector83
f) increase by a factor of x the share of environmentally sustainable
products and services in GDP84

Appropriate means of implementation

Focus area 10. Sustainable cities and human settlements
Build inclusive, safe and sustainable cities and human settlements
a) By 2030, ensure universal access to adequate and affordable
housing and basic services for all86, and eliminate slum-like
conditions everywhere87
b) By 2030, provide access to safe, affordable, accessible and sustainable transport for all, improve road safety and urban air quality.

c) Enhance capacities for integrated urban planning and management.

d) By 2030, reduce the ecological footprints of cities by x%.

e) By 2020, increase by x% the number of cities adopting and implementing policies and plans towards resilience and adaptation to climate change and natural disasters.

f) By 2030 enhance social cohesion and personal security, and ensure universal access to inclusive and safe public spaces.

g) By 2030 ensure that all cities are accessible and offer opportunities to persons with disabilities.

h) Protect and safeguard the world’s cultural and natural heritage.

Appropriate means of implementation

Focus area 11. Sustainable Consumption and Production

Promote sustainable consumption and production patterns

a) By 2030 achieve sustainable management and use of natural resources.

b) By 2030 reduce waste by x% through prevention, reduction, recycling and reuse.

c) Improve the resource productivity of economic activities by x%, including through sustainable supply chains by 2030.

d) By 2030 redouble efforts to raise awareness for creating a culture of sufficiency and sustainable lifestyles, including sustainability information on products and services.

e) By 2020, encourage economic incentives that promote sustainable consumption and production patterns including through a product life cycle approach.

f) By 2030 increase by x percentage points the share of companies reporting on corporate social and environmental responsibility, including integrated reporting.

g) By 2030, all financial sector actors incorporate sustainable development principles in their business practices.

h) Create incentives for sustainable tourism.

Appropriate means of implementation

Focus area 12. Climate change

Take urgent and significant action to mitigate and adapt to climate change.
change

Build a climate change goal based on the outcome of COP21 of the

UNFCCC
a) hold the increase in global average temperature below an x°C rise in accordance with international agreements
b) build resilience and adaptive capacity to climate induced hazards in all vulnerable countries
c) integrate climate adaptation and emissions reductions into development plans and poverty reduction strategies
d) introduce instruments and incentives for investments in low-carbon solutions in infrastructure, industry and other sectors
e) improve education and awareness raising on climate change

8

Appropriate means of implementation

Focus area 13. Conservation and sustainable use of marine resources, oceans and seas
Take urgent and significant actions for the conservation and sustainable use of marine resources, oceans and seas
a) by 2030, prevent, control and reduce by x% marine pollution and marine disposal of waste and tailings, including from land-based activities
b) by 2030, restore and protect marine ecosystems from destruction, including by halting and preventing ocean acidification
c) by 2030, regulate harvesting to restore fish stocks to ecologically safe levels that can produce maximum sustainable yield, and support sustainable small-scale fisheries
d) develop and ensure the full implementation of existing regional and international regimes governing oceans and seas, including for resources in areas beyond national jurisdictions

e) by 2020, eliminate illegal, unreported and unregulated (IUU) fishing and destructive fishing practices

f) establish Marine Protected Areas, consistent with international law

g) by 2030, eliminate fishing subsidies which contribute to overcapacity and overfishing

Appropriate means of implementation
Focus area 14. Ecosystems and biodiversity
Protect and restore terrestrial ecosystems and halt all biodiversity loss
a) by 2020 halt the loss of all biodiversity, including habitats, and protect threatened species122
b) by 2020 ensure conservation and sustainable use of ecosystems, including through restoration of degraded critical ecosystems123

c) maintain genetic diversity of both farmed species and their wild relatives124
d) by 2030, ensure sustainable management of all forests125 and mountain ecosystems,126 halting deforestation and increasing reforestation127 by x%
e) by 2030, achieve a land degradation neutral world128
f) ensure fair and equitable sharing of benefits derived from natural assets, including genetic resources129
g) end poaching and trafficking of endangered species130
h) by 2030, eliminate invasive alien species131
i) ensure inclusion of indigenous and local communities in decision making, and promote traditional knowledge of indigenous peoples132

Appropriate means of implementation

Focus area 15. Means of implementation/Global partnership for sustainable development
Strengthen global partnership for sustainable development
Means of implementation
Trade:
a) promote open, rules-based, non-discriminatory and equitable multilateral trading and financial systems133, including complying with the agricultural mandate of the WTO Doha Round134
b) provide greater duty-free and quota-free market access to least developed countries in keeping with World Trade Organization decisions135
c) improve market access for agricultural and industrial exports of
developing countries, especially Least Developed Countries, and at least double the share of LDCs’ exports in global exports by 2020.

**Technology transfer, technological capabilities:**

d) enhance regional and international cooperation for science, technology, and innovation and solutions-oriented research, and enhance knowledge sharing, including through North-South, South-South and triangular cooperation.

e) promote transfer and dissemination of clean and environmentally sound technologies to developing countries.

f) fully operationalize the Technology Bank and STI Capacity Building Mechanism for LDCs.

g) strengthen institutions and build capacities in developing countries to undertake research, development and adaptation of technologies, including clean and environmentally sound technologies.

h) support fully research and development of vaccines and medicines for the common diseases of developing countries, notably LDCs.

**Financing and debt sustainability:**

i) full implementation by developed countries of ODA commitments on an agreed timetable based on agreed principles.

j) mobilize additional financial resources from multiple sources, including reducing the cost of remittances.

k) encourage long-term private foreign investment and inclusive finance.

l) ensure adequate financial resources for investments in sustainable development.

m) ensure debt sustainability and debt relief.

n) promote inclusive, participatory decision-making at both national and international levels, including the conclusion of reforms for increasing effective participation of developing countries in international financial institutions.

o) strengthen domestic resource mobilization, including by improving tax collection and the efficiency of public spending, reducing tax evasion.
evasion and avoidance, improving stolen asset recovery, and strengthening systems to harness domestic savings for investment

p) promote sustainable public procurement, including through national targets

**Capacity building:**

q) expand by x% globally the number of scholarships for students from LDCs to enroll in higher education programmes in developed countries and other developing countries, with focus on science, engineering and management

r) substantially strengthen capacities for sustainable development data collection and analysis with a focus on generating disaggregated by age and gender, timely and high-quality data

s) countries progressively introduce expanded measures of progress beyond GDP into national accounting, with supportive statistical capacity building in developing countries

t) develop and implement capacity building programmes in developing countries, especially LDCs, in support of the national plans implementing sustainable development goals, including in agriculture, nutrition, water, energy, health as well as in disaster prevention and reduction capacity and sustainable natural resources management

**Strengthened global partnership for sustainable development**

u) engage all stakeholders in implementation of the SDGs, including through effective, innovative and accountable partnerships in cooperation with governments that mobilize financial resources, develop and disseminate technologies and provide technical expertise

v) regular monitoring and reporting of progress on SDGs within a shared accountability framework, including means of implementation, the global partnership among Member States and multi-stakeholder initiatives and partnerships

**Focus area 16. Peaceful and inclusive societies, rule of law and...**
capable institutions
Peaceful and inclusive societies, rule of law and capable institutions
Creating peaceful and inclusive societies:
a) by 2030 reduce by x% crime, violence162 and exploitation especially of children163 and women164 including by reducing organized crime165 and human trafficking166
b) by 2030 eliminate discriminatory laws, policies and practices,167 empower marginalized groups,168 in the social, political and economic fields
c) by 2030 establish inclusive, participatory decision-making,169 including at local governments,170 taking into consideration the interests of future generations
d) by 2020 provide information and education on a culture of non-violence171
e) by 2030 implement planned and managed migration policies172

Rule of law, capable institutions:
a) by 2030 develop effective, accountable and transparent institutions at all levels173
b) by 2030 provide equal access to independent and responsive justice systems including related to property and tenure rights, employment, business, taxation, trade and finance174

c) by 2020 provide public services for all, including legal identity175
d) improve access to information on public finance management, public procurement and on the implementation of national development plans176
e) by 2030 decrease by x% corruption in all its forms177 and illicit financial flows178

f) remove unnecessary restrictions of freedom of media, association and speech179
